

SCHOOL COVID TESTS

**WHITTLESEY & DISTRICT
AREA OF SERVICE:** 

Project description

When students returned to school after the pandemic, they all had to have Covid Lateral Flow tests, initially on 3 occasions, before they could return to school.

Whittlesey Lions offered their services to the school and were told that they needed to complete on-line training and testing. 10 members completed this and were each awarded 5 certificates stating that they were competent in these 5 areas. (Meet and greet, infection prevention, self-swabbing, process testing and logging results).

For 9 days in March 2021, 6 days in September 2021 and 1 day in January 2022 members of the Lions attended the school to carry out the tests.

SCHOOL COVID TESTS

**WHITTLESEY & DISTRICT
AREA OF SERVICE:** 

What went well?

The whole experience and testing process went exceptionally well. The Deputy head at the college stated that without our help he didn't know what he would have done.

Lessons learnt

A good lesson in helping local communities and schools

5,800 people served

931 volunteer hours
